

Linguistique de Corpus (LAVS, LISH)

1. Corpora

rien

2. Stats

Perform a logistic regression on the future constructions in English.

Use 1st Person Going to and 3rd Person *will* (to keep things simple).

What factors are significant predictors?

What features are the most important? What do they predict?

Et si rms fonctionne:

What is the predictive power of the model as indicated by the C score?

Include the output in R (a screen shot is ok)
